Minutes of the February 8 meeting were approved.

Reports

Coronavirus

No change. There is an unconfirmed report that one Marin Valley resident has tested positive for Covid and is in quarantine at home. The fact that the Park has so far remained virtually free of Covid cases is likely a direct result of residents and visitors adhering to local and state health care directives, mainly wearing masks – correctly – and maintaining social distance. As most Marin Valley residents are in a vulnerable age group, we all need to be even more cautious than ever, despite the fact that we may be experiencing “pandemic fatigue.”

Though a few residents have received at least one vaccination dose, vaccinations for many residents may still be weeks or months away, depending on the availability of the vaccine. There is still the possibility that our clubhouse may be used as a vaccination site, and MVEST committee members are exploring this possibility with the appropriate officials. In the meantime, and even after both doses of the vaccine are received, mask-wearing and social distancing will still be necessary for quite some time. It is recommended that residents get vaccinated as soon as

possible, through whatever channel first becomes available to that individual, especially since new variants of the virus are quickly becoming more widespread.

Since the situation is rapidly evolving, John H. again recommended using the following link for keeping up to date regarding the local vaccination rollout: <https://coronavirus.marinhhs.org/>

Marin Valley Firewise

John H. reminded the committee that there will be a FIRESafeMARIN webinar via Zoom on Tuesday, February 23 at 6:00 p.m. Called “Zone Zero – The Critical First 5 Feet,” the link is <https://firesafemarin.zoom.us/j/87382415962>. Speakers will be Todd Lando, Wildfire Hazard Mitigation Specialist/Battalion Chief, Central Marin Fire Department, and Steve Quarles, Chief Scientist (retired), Insurance Institute for Business and Home Safety. If the Zoom call is at capacity, it can be viewed in real time on Facebook. It will be available for viewing after the event on the FIRESafe MARIN website and also on our website, www.marinvalley.net.

John H. reported that there are plans for evaluations by a Novato Fire District Wildfire Mitigation Specialist for the entire Park, including individual homesites. MVEST will use this as an educational opportunity for residents, stressing that it is entirely free and voluntary for the resident and that the information about the resident’s property will be private, shared only with that resident. Bill is researching details on the process and the timeline and will write an article about it for the April *Echo*.

John F. and John H. have developed an instructional video regarding resident utility connections, or pedestals. This will be the first in a series of video trainings for residents. They will be presented via Zoom meetings that will be recorded and later posted to the website, www.marinvalley.net. This format will allow for a question-and-answer period and therefore may prove more useful than a straightforward training video. This first Zoom meeting will be held on Wednesday, March 24 at 6:30 p.m. The information will also be presented in printed form in the March *Echo*.

The next topic to be handled in this fashion is home laundry dryer safety, which David Gray is working on.

The following topic will be the wildfire mitigation program mentioned above, which will also be promoted via tube flyers.

Mr. Bill's Shed

Bill will do a quick inventory of the contents of the shed and will contact more charities to see if any of the medical equipment can be donated to them. Surplus may be dispensed with via a sign in the clubhouse breezeway, a listing on Nextdoor, and/or a message on the MVMCC website.

FIRESafe MARIN/Marin County Firewise

See above under "Marin Valley Firewise."

John H. reported that the focus of the last meeting was evacuations. He suggested that Marin Valley could practice again, either by MVEST Zone or by individual household. The focus of the next meeting will be insurance, for instance, the possibility of adding a WUI compliance disclosure to real estate transactions in WUI areas.

Park Security

Kevin continues to monitor the area in and around the Park. His reports are sent to the Novato Police Department and neighboring communities, including Bay Vista. Novato Police and Novato Fire will attend to the two abandoned campsites and fallen trees on a fire road that were recently discovered by Kevin.

John F. is continuing to pursue the formation of a Neighborhood Watch type group in the Park.

Novato Fire District

No report.

Echo Articles

See above under "Marin Valley Firewise."

www.marinvalley.net

Our website continues to be updated and improved, including information about MVEST and Firewise meetings and webinars.

Erma again reminded the committee that there are also links on the home page for information about Covid-19 vaccinations.

Old Business

See above under "Marin Valley Firewise."

The committee again discussed the purchase of a tool to help residents lift and/or move their clothes dryers in their fire prevention efforts (see above under "Marin Valley Firewise"). John F. has researched these and will do further research to identify the most appropriate model. John H. will have the purchase, from the MVEST account, approved by Matt.

New Business

None.

Next Meeting

Monday, February 22 at 5:00 p.m. via Zoom teleconferencing.

Residents who are not on this committee who would like to attend, please contact John Hansen so that he may send you an agenda, which includes an email invitation to join the call via your computer or phone.

Respectfully submitted,
Carol-Joy Harris
Recording Secretary
